

ON CAMERA INTRODUCTION TO THE ACTING BIZ

with S.Siobhan McCarthy

In this six week on camera intensive workshop you will learn the foundations of the acting business so that you can go out into the industry and seek professional work.

The course will cover audition and on- set etiquette, terminology, and the audition process for commercials, film and television dealing with nervousness, cold reads, improvisation and being 100% committed.

We will discuss and study the present climate of the industry in Vancouver, study scenes from projects that are being shot in Vancouver and BC and strategies on how to get an agent and then how to get your agent to work for and with you.

All classes will be taped so that students will be able to piece together a demo reel at the end of the workshop to assist them in finding representation.
